

PRODUCT CHANGE NOTICE
PCN Form (D4-E000-73)

PCN #06-005

NOTIFICATION DATE: September 5, 2006

MODELS AFFECTED:

TC-Series of Tin / Lead (SnPb) Plated Non-RoHS Transformers.

EXTENT OF CHANGE:

- ▶ TC series changes from RoHS5 to RoHS Compliant.
- ▶ Enable use of alternate (Gold over Nickel) plating on TC series of transformers.

EFFECT OF CHANGE:

- ▶ Change of termination / interconnect plating from SnPb to Gold over Nickel plating.
- ▶ No change in internal components, process, customer footprint, fit or function.

REASON FOR CHANGE:

- ▶ Availability of Tin/Lead plating is limited.
- ▶ Change is initiated to meet the growing market demand for a qualified RoHS finish. It will provide greater manufacturing continuity using an industry standard finish, Gold over Nickel.

EFFECTIVE DATE OF CHANGE:

Immediate

DELIVERY:

Parts using either plating may be shipped during the transition phase. However, we will not mix the finishes within any one shipment
