

Corporate Profile

THOUSANDS OF OFF-THE-SHELF AND CUSTOM MODELS AVAILABLE!

ADAPTERS • AMPLIFIERS • ATTENUATORS, FIXED, DIGITAL, VOLTAGE VARIABLE, ADAPTENUATORS (between series connection)
BIAS TEES • CABLES, PRECISION TEST • DETECTORS, PHASE, AMPLITUDE • DIRECTIONAL COUPLERS • DC BLOCKS • FILTERS
FREQUENCY MIXERS • FREQUENCY MULTIPLIERS • IMPEDANCE MATCHING PADS • LIMITERS • LINE STRETCHERS, ELECTRONIC
PHASE DETECTORS • PHASE MODULATORS, DEMODULATORS • PHASE DETECTORS • POWER SPLITTERS/COMBINERS • RF CHOKES
SWITCHES • SYNTHESIZERS • TERMINATIONS • TRANSFORMERS, RF, IF, MICROWAVE • VOLTAGE CONTROLLED OSCILLATORS, (VCOs)

Mini-Circuits®...A Commitment Of Total Support To Our Customers

finding new ways...setting higher standards

As a global leader in the design, manufacturing, and distribution of RF, IF, and microwave components, Mini-Circuits® provides the signal processing solutions and matchless expertise you need to fuel your projects success. Rapid response, innovative design, demanding quality standards, fast turnaround, value pricing, on-time delivery, and top notch customer service have helped make Mini-Circuits® the industries powerhouse for support, providing to you that extra edge in today's competitive wireless and digital communication markets.

Widest Array of Product Lines: With 29 different product lines representing thousands of off-the-shelf and custom models, Mini-Circuits® offers the world's largest variety of signal processing components covering the DC to 20GHz band for commercial, industrial, and military applications. These product lines technologically lead their categories with next generation advancements such as patented Blue Cell™ LTCC construction delivering the world's smallest, lowest profile surface mount designs with tight performance repeatability and the lowest cost.

Worldwide Manufacturing Facilities, Sales Offices, Distributors, and Representatives make it very easy for customers to work with us no matter where on earth they are located. These international support channels stand ready to quickly respond to customers requests for literature and handbooks, answer questions, analyze specifications and recommend parts, communicate new product data, discuss custom requirements, and respond in a way that will satisfy or exceed your expectations. State-of-the-art factories in India, Malaysia, Israel, England, China, and throughout the United States are geared to supply large quantity production orders on short notice.

RoHS Compliant Products: Available now from Mini-Circuits: Hundreds of RoHS models equivalent to our standard models. Every day we are adding more RoHS models to our catalog. Let Mini-Circuits work with you for all your RoHS compliant needs! See our website for RoHS compliance methodologies and qualifications.

Strong Technical Support is very easy to access at Mini-Circuits...3 ways!

- ❶ Live technical support from our professionally qualified applications engineers is just a phone call or email away.
- ❷ Our "RF/IF Designer's Guide" is available online, and now on CD with greatly expanded features! In addition to the most complete specification and price information about all Mini-Circuits® off-the-shelf products, this new CD is packed with actual measured performance data, more than 70 technical papers and application notes, and a lot more! *Contact Mini-Circuits® for your free copy today.*

A Solid Vision Of The Future: Mini-Circuits® is continuously initiating innovative actions and procedures to obtain higher product reliability, improved technical performance, and best-in-industry solutions. At Mini-Circuits®, quality is not merely a word...it's a guarantee! Our vision of the future is to continue to build on our reputation as a world preferred supplier of RF, IF, and microwave products. Our strategy for accomplishing this goal is to take actions *today* to make each and every customer our most important!
