

its 50 Ω 6 inch DC to 18 GHz Right Angle SMP-Female

THE BIG DEAL

- Wideband frequency coverage, DC to 18 GHz
- Low Loss, 0.87 dB at 18 GHz
- Excellent Return Loss, 20 dB at 18 GHz
- Hand formable to almost any custom shape without special bending tools
- 3.2mm bend radius for tight installations
- Connector interface, meets MIL-STD-348
- Ideal for interconnect of assembled systems

Generic photo used for illustration purposes only

Model No.	047-6SMPRC+		
Case Style	BZ2557-6		
Connectors	Right Angle SMP-Female		

+RoHS Compliant

The +Suffix identifies RoHS Compliance. e our website for methodologies and qualification

APPLICATIONS

- Replacement for custom bent 0.047" semi-rigid cables
- Communication receivers and transmitters
- Military and aerospace system
- Environmental and test chambers

PRODUCT OVERVIEW

The 047 Series Hand-Flex[™] Coaxial Cables are ideal for interconnection of coaxial components or sub-systems in tight spaces. The outer shield is tin plated copper braid and tin soaked, which minimizes signal leakage and at the same time flexible for easy bend. Right-angle SMP-F blind mate push-on / snap-on connector 180° rotated make these cables ideal for connections between adjacent modules in crowded system layouts. The 047 Series Hand-Flex[™] Cables features gold plated beryllium copper construction. The 047 Series Cables are available in variety of length to meet your requirements.

KEY FEATURES

Feature	Advantages		
Hand-Formable RF Cables	The 047 Series Hand-Flex [™] cables are hand formable making them ideal for use integrating coaxial components and sub-assemblies without the need for special cable-bending tools and alleviating the risk of damage during the bending process typical of semi-rigid coaxial cable assemblies.		
Tight Bend Radius, 3.2mm	Capable of only 3.2mm bend radius, the 047 Hand-Flex™ series is able to make connections in tight spaces mak- ing these cables ideal for dense system integration.		
Right-angle SMP-F blind mate push-on / snap-on connectors, 180° rotated	Ideal for interconnect of adjacent modules with tight space constraints without sacrificing high- frequency per- formance due to severe bend near the connector interface.		
Excellent Return loss, • 26 dB at 6 GHz • 20 dB to 18 GHz	The 047 Series Hand-Flex™ Cables are ideally suited for interconnecting a wide variety of RF components while minimizing VSWR ripple contribution due to mating cables & connectors.		
Good Power Handling Capability: • 22.5W at 0.5 GHz • 4.5W at 18 GHz	Mini-Circuits' 047 Cable series can support medium to high RF power levels enabling these cables to be used in the transmit path.		

6 inch DC to 18 GHz Right Angle SMP-Female

ELECTRICAL SPECIFICATIONS AT +25°C

Parameter	Frequency (GHz)	Min.	Тур.	Max.	Units
