

Engineering Development Model

Level 21 (LO Power +21 dBm)

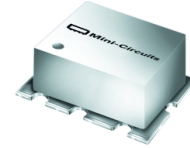

□□□"#□□\$□□□□□□

789(□/!;□+□

Important Note

This model has been designed, built and tested in our engineering department. Performance data represents model capability. At present it is a non-catalog model. On request, we can supply a final specification sheet, part number and price/delivery information.

Please click back, and then click Contact Us for Applications support.
