

Coaxial Low Pass Filter

ZLPF-120+

50Ω DC to 120 MHz

The Big Deal

- High rejection
- Fast roll-off
- Good VSWR
- Connectorized package

CASE STYLE: CC1935

Product Overview

ZLPF-120+ is a 50Ω low pass filter built in connectorized package. Covering DC-120 MHz bandwidth, these units offer good matching within the passband and high rejection in stopband. This will find its applications in military communication and mobile satellites. It has repeatable performance across production lots and consistent performance across temperature.

Key Features

Feature	Advantages
Low passband insertion loss	Suitable for high performance application
Fast roll-off	Provides very good adjacent band rejection
Connectorized package	The connectorized package is easy to interface with other devices and well suited for test setups
Good VSWR	Provides good interface when used with other devices.
