50Ω DC to 12 GHz

Product Overview

Mini-Circuits' ZTVX-10-12 is a flexible, 2 by 10 blocking switch matrix covering DC to 12 GHz with low insertion loss and high isolation. The compact 2U height, 19-inch rack-mountable chassis includes all RF connections (SMA) on the front panel. This system is ideal for expanding a standard 2 port VNA for multi-port or multi-device testing:

- Parallel testing of multiple 2 port devices such as filter or amplifier characterisation
- · Production testing of splitter / combiner or switch components with high port counts
- · Testing of MIMO systems with high channel counts

The system can be controlled via USB or Ethernet (supporting both HTTP and Telnet network protocols). Full software support is provided, including our user-friendly GUI application for Windows and a full API with programming instructions for Windows and Linux environments (both 32-bit and 64-bit systems).

The full ZTVX series also includes options for both 50Ω and 75Ω testing over a range of frequency bands, with switch configurations from 2 x 8 up to 2 x 32.

Key Features

| Feature | Advantages |
|-------------------------------------|--|
| High port counts | Bi-directional operation from 2 to 10 ports facilitates a wide range of switch applications |
| Compact package | The 2U height, rack-mountable chassis is easily located beneath a VNA or in a rack test environment. |
| Ethernet Control | Remote control from any computer or device with a network connection (HTTP or Telnet protocols). |
| USB HID (Human Interface Device) | Local control via USB connection with no driver installation required. Compatible with Windows® or Linux® operating systems using 32 and 64 bit architectures. |
| Full software support | The user friendly Windows GUI (graphical user interface automation) allows manual control straight out of the box. A full API (application programming interface), programming examples and manuals are provided to allow automation in most programming environments. |

Programming Commands

- The key ASCII / SCPI commands for control of the system are summarized below
- These can be sent via the USB or Ethernet API
- Please refer to the programming manual for full details

| Command / Query | Description | | |
|-----------------------|--|--|--|
| :MN? | Read model name | | |
| :SN? | Read serial number | | |
| :FIRMWARE? | Read firmware version | | |
| | Set the path between 2 switch ports: | | |
| :PATH:a_port:n_port | • a_port = "Input" port | | |
| TATTLA_por C.TI_por C | • n_port = "Output" port | | |
| | • Example: :PATH:A1:N8 (connect A1 to N8) | | |
| ·DATH·innut) | Check which "output" is connected to a specified | | |
| :PATH:input? | input port | | |

Software Specifications

- Connect via USB or Ethernet
- Run GUI in "demo mode" to evaluate software without a hardware connection
- View and set all switch paths
- Configure Ethernet settings
- Upgrade firmware
- · Send SCPI commands
- View temperature & fan status

Ordering Information

Please contact Mini-Circuits' Test Solutions department for price and availability: **testsolutions@minicircuits.com**

Included Accessories

| Model Name | Quantity | Description |
|----------------|----------|---|
| CBL-3W-xx* | 1 | AC power cord (IEC C13 connector to local plug) |
| USB-CBL-AB-7+ | 1 | USB cable (6.8 ft) |
| CBL-RJ45-MM-5+ | 1 | Ethernet cable (5 ft) |
| HT-4-SMA | 1 | SMA Cable Wrench (4 in) |

^{*}Please specify one option on the purchase order, at no charge

| Cable Model | Region |
|-------------|-------------------|
| CBL-3W-US | USA |
| CBL-3W-EU | Europe |
| CBL-3W-IL | Israel |
| CBL-3W-UK | UK |
| CBL-3W-AU | Australia / China |

Additional Notes

- A. Performance and quality attributes and conditions not expressly stated in this specification document are intended to be excluded and do not form a part of this specification document.
- B. Electrical specifications and performance data contained in this specification document are based on Mini-Circuit's applicable established test performance criteria and measurement instructions.
- C. The parts covered by this specification document are subject to Mini-Circuits standard limited warranty and terms and conditions (collectively, "Standard Terms");
 Purchasers of this part are entitled to the rights and benefits contained therein. For a full statement of the Standard Terms and the exclusive rights and remedies thereunder, please visit Mini-Circuits' website at www.minicircuits.com/MCLStore/terms.jsp
